

Π Performance Intermedia Festival 2007 **19-21.10.2007**

Π Performance Intermedia Festival is an international festival of art events that happen in a definite place and time. It aims to create an experimental scene of modern art (performance art, multimedia, intermedia, actions in public space). First edition entitled „Private Impact” accompanied the Baltic Biennale of Contemporary Art „Extra Strong Super Light” in 2003. Second edition, as Live Art Festival „PerForma”, took place in 2004 as an independent event. Third, extended edition of the project named Live Art Festival „Π Private Impact” in 2005 included new elements (Π guest, Π night, Π café, Π talk, Π young, Π workshop, Π five) and took place in Szczecin, Świnoujście and Berlin (AktionsBank). Fourth edition, already as “Π Performance Intermedia Festival”, was presented in Szczecin (place of art OFFicyna, the National Museum in Szczecin), and Świnoujście (Centrala).

This year’s program of the Π Performance Intermedia Festival includes the following elements:

Π_presentations of known and approved artists from various countries of the world.

Π_guest in every edition of the festival curators invite a prominent person giving a new input to contemporary art scene.

Π_night night presentation of performance art and multimedia in the array rooms of the National Museum in Szczecin – the most representative building down town.

Π_young an accompanying program of the festival where young artist invited by curators can present themselves before the professional artists. It gives them a chance to come into existence on the art scene and the audience gets a chance to experience another art actions.

Π_café during the festival in the place of art OFFicyna there is a café – a place of meetings and discussions, where man can rest and relax as well as exchange observations and ideas with artists and other participants of the festival.

Π_talk in the evenings after numerous artistic presentations there is a possibility to take part in the discussions and seminars with invited artists.

Π_workshop intermedia workshops lead by curators and artists. Young people that often participate for the first time in an event of contemporary art, during workshops open themselves for new experiences.

Π_five the project is a review of short productions from the field of video art. The videos come from the whole world and their duration is up to five minutes. The formula of the festival is an artistic-social formula that fits in the areas of interest of the OFFicyna Association.
